EXPERIENCE

UltimateTag LLC — Lead Engineer, Co-Founder

October 2025 - PRESENT | St. George

- › Co-founded and led development of a digital, real-world sword-sport ecosystem combining custom NFC hardware, backend systems, and a gamified mobile experience
- › Sword-fighting gauntlet and meetup system, handling sessions, matches and tag captures
- › Architected with a monorepo to manage mobile, web, backend, and additional tooling

Academic Innovations LLC (Get Success 101) — Full-Stack Software Engineer

2022 - PRESENT | St. George, Remote / Hybrid

** Trusted as sole engineer by founder; owned projects end-to-end with minimal supervision*

- › Lead / sole developer of My10YearPlan, an educational mobile app for ten-year career and financial planning
- › Built a full textbook editing and online publishing system in **one month** for easy production of A.I.'s digital course materials, delivering production-ready tooling on an accelerated timeline
- › Maintained and improved legacy PHP systems to address growing customer usage across multiple states
- › Worked directly with founders to turn new product ideas into a reality

ConcreteGames, LLC — Co-Founder, Developer

2018 - 2022 | St. George

- › Co-founded and registered an LLC to publish websites and indie games
- › Gained early experience in the development lifecycle of planning to product
- › Built, deployed, and maintained web, browser and native games.
